

**You will need:**

- A paper plate
- Green paint
- A paintbrush
- Coloured card
- A glass (or other circular object to draw around)
- Hole punch
- Glitter
- Glue
- Scissors
- Decorative ribbon or string

**Instructions**

1. Paint your paper plate and set it aside to dry.
2. Draw around your circular object on to your sheets of coloured card. These will become the baubles on your tree!
3. Ask an adult to help you carefully cut the circles out. Add a hole to each one using your hole punch.
4. Add some glue to each bauble shape and decorate with glitter. Leave them to dry.
5. Draw a spiral shape onto your paper plate, then carefully cut along the line until you reach the middle.
6. Tie a piece of ribbon around the central part of your plate spiral. Make sure it is long enough for your tree to hang from.
7. Decide where you would like your bauble to go. Punch a hole into your plate for each bauble.
8. Add ribbon to each bauble. Thread them through the holes that you have just made on your tree, and tie them securely.
9. Cut 2 star shapes from a piece of bright or sparkly card.
10. Glue one star to either side of the string at the top of your tree (the string should be sandwiched between the two stars).
11. Stretch your tree out and decide where you would like to hang it!
