

Uppy Umbrella's Weather Wheel

Make this super Uppy Umbrella Weather Wheel. You can use it every day to show what the weather is like outside!

You will need:

A grown-up to help you, scissors, thin card, glue and a paper fastener.

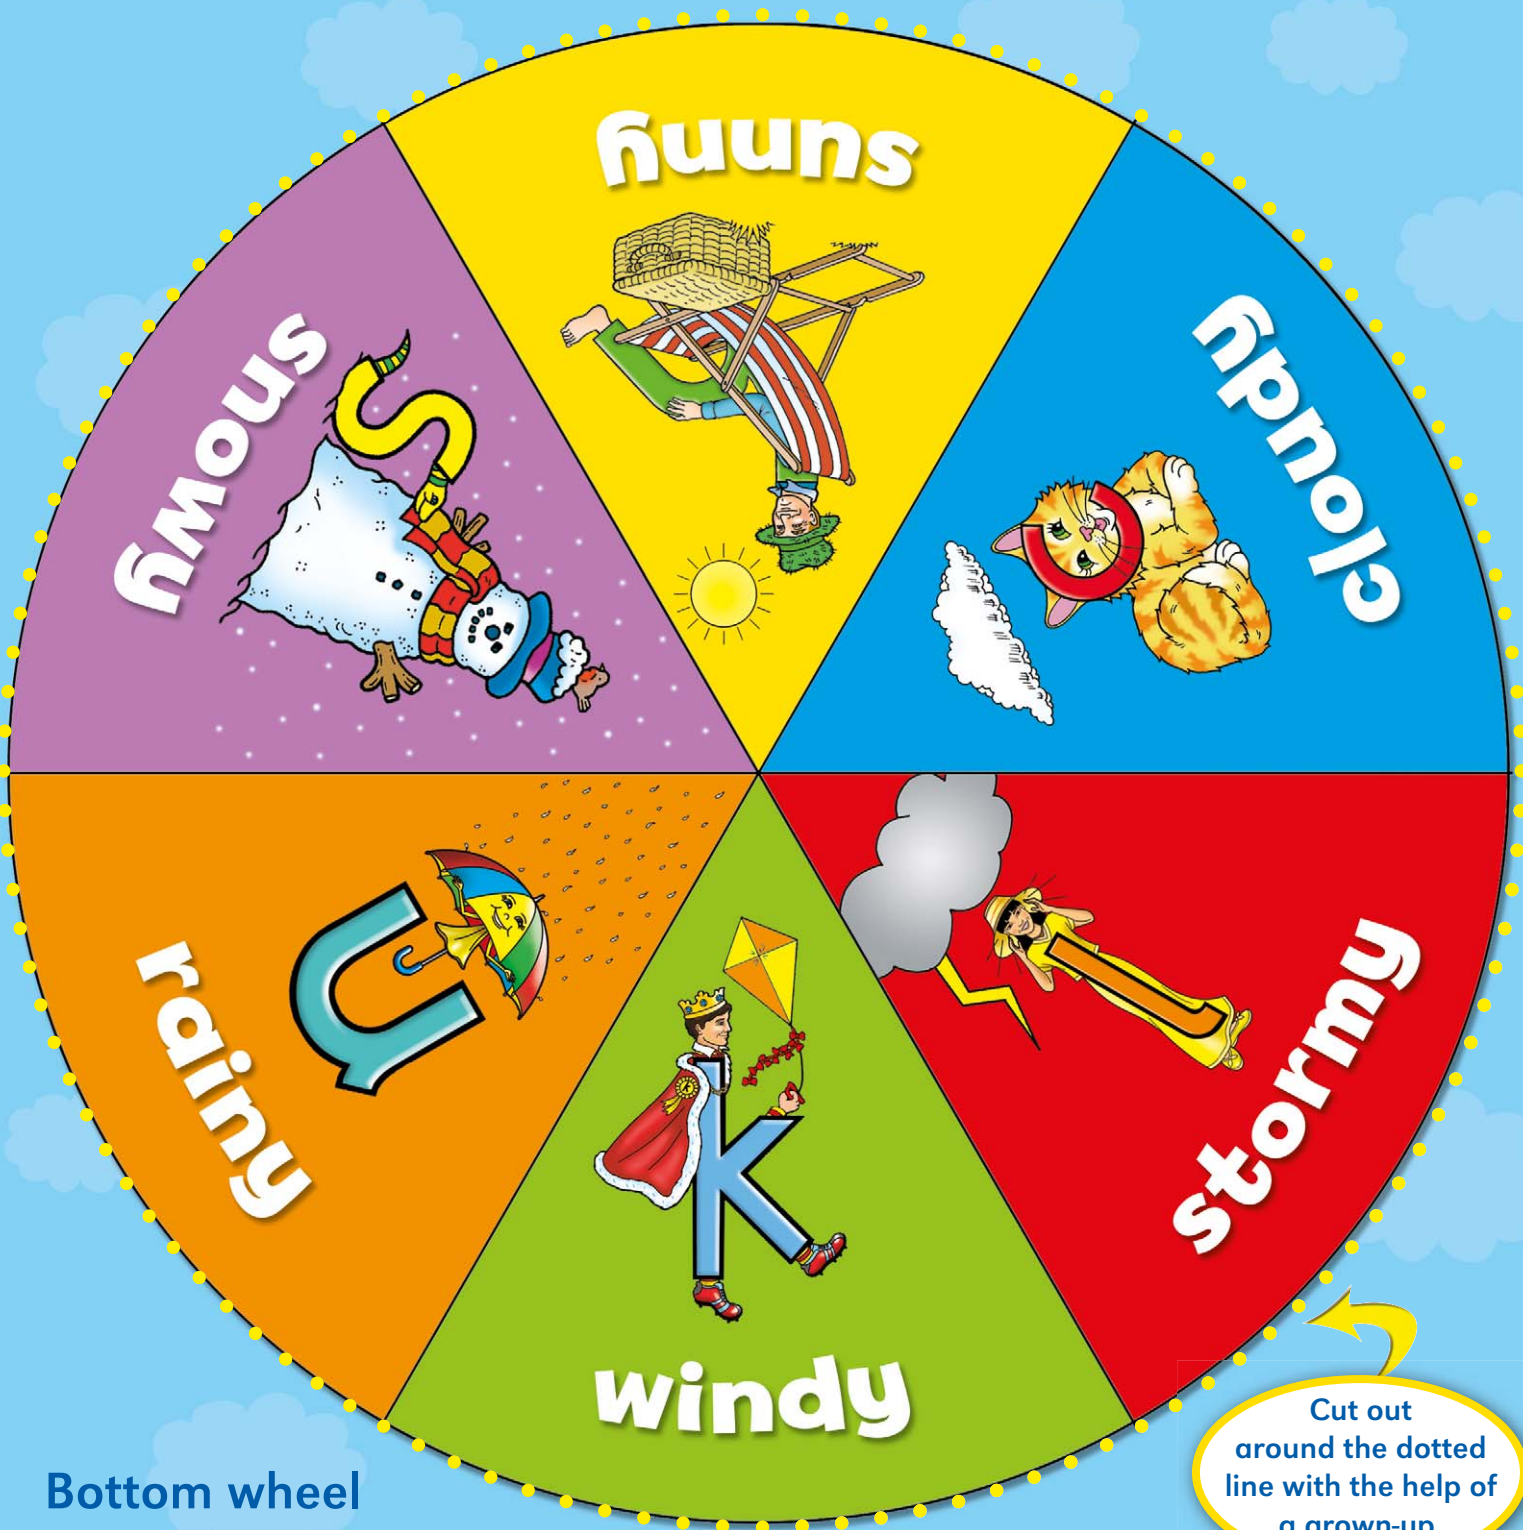

To make your weather wheel:

Ask your grown-up to help when using the scissors or paper fastener.

1. Print out these two sheets and glue them on to thin card. Then cut around the dotted lines. Cut out the blue segment on the top wheel.

2. Place the wheels on top of each other and push a paper fastener through both wheels, at the red dot. Turn the top wheel and you can show what the weather is like every day.

Bottom wheel

Cut out around the dotted line with the help of a grown-up.
