

You will need

- Paper
- A pen
- Scissors
- Green and brown pencils

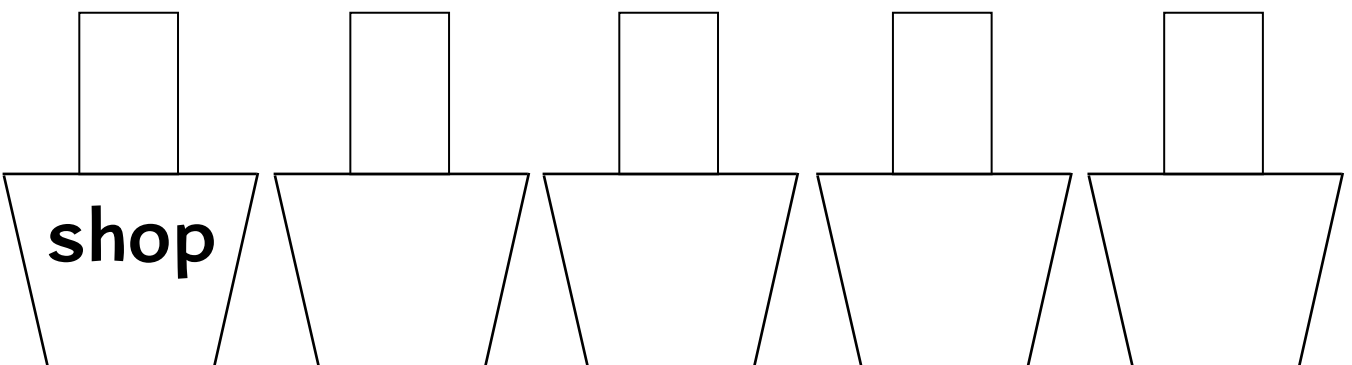

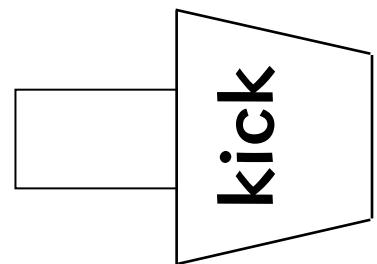

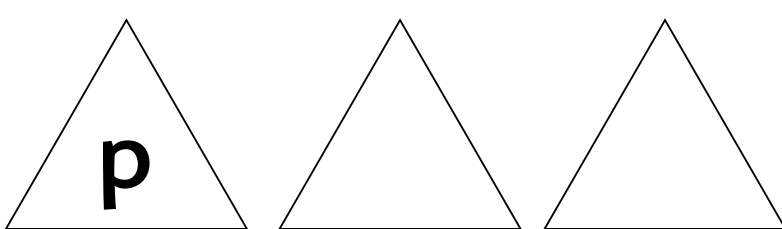

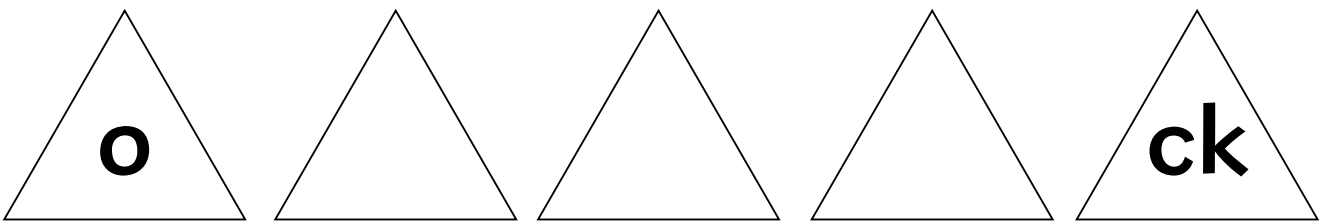

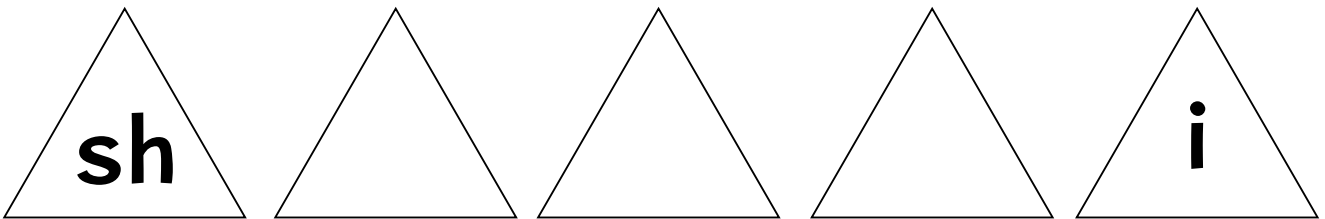

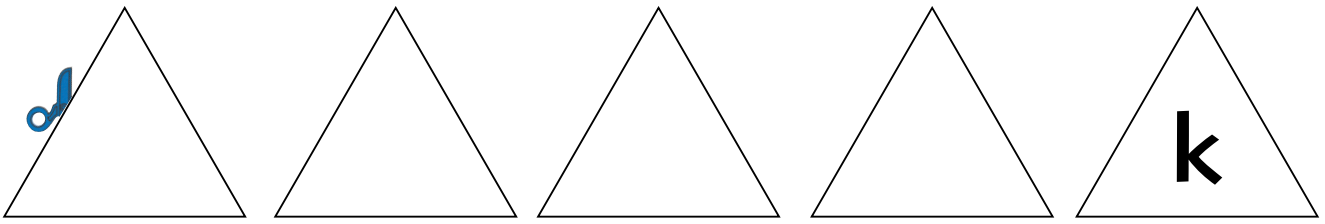

Instructions

1. Print the template or draw your own triangles and pots.
2. We've included a few example words, but you can add in 6 words of your own choice to practice.
3. Make sure to write the fully word in a pot, and each spelling pattern contained in the word in it's own triangle (as in the examples).
4. Cut them out and place the pots and triangles on a table.
5. Children pick a pot and read the word. Then they pick the matching spelling patterns and stack them in the correct order to make the word.
6. To make it harder you could give multiple options for a word, using incorrect spelling patterns that make the same sound. Children then have to pick the spelling patterns that make the correct spelling.
7. Once they've got it correct, use the pencils to decorate your Christmas Tree Word!
