

Day Four: Paper chains

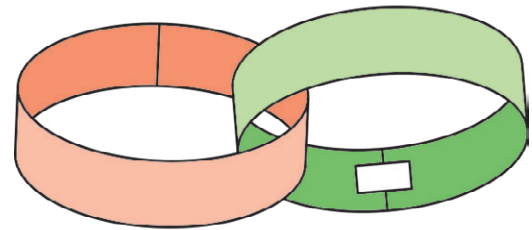

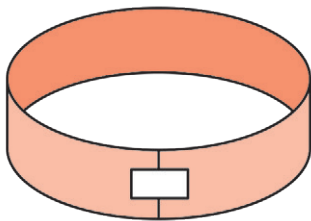

You will need

- Sheets of printed paper strips (see overleaf)
- Scissors
- Glue or sticky tape

Instructions

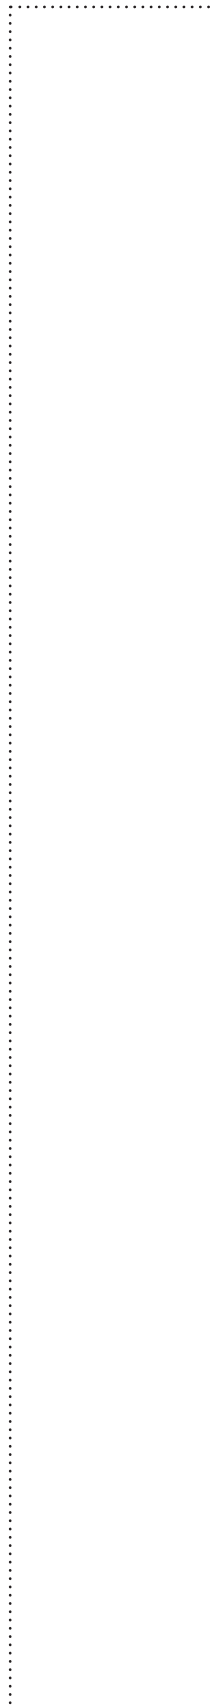

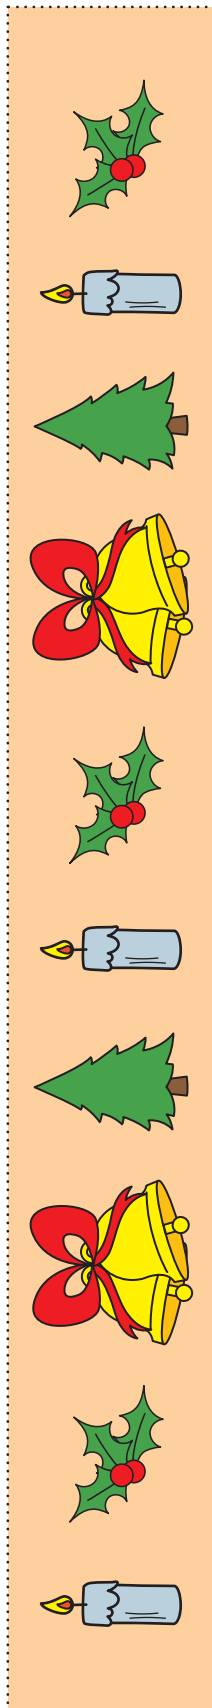

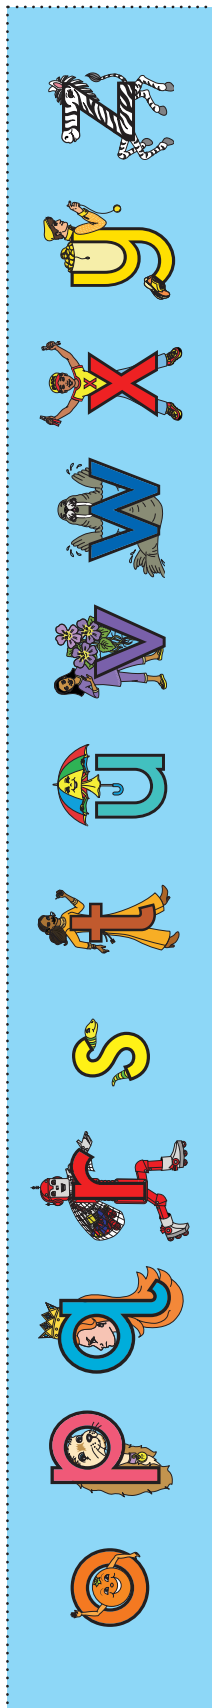

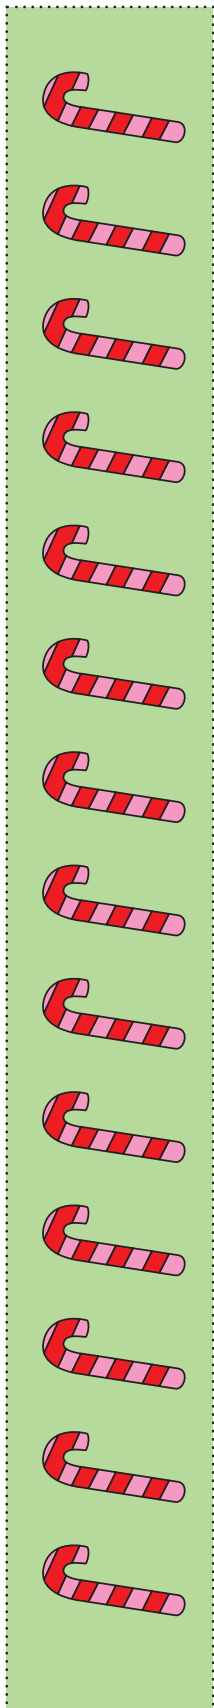

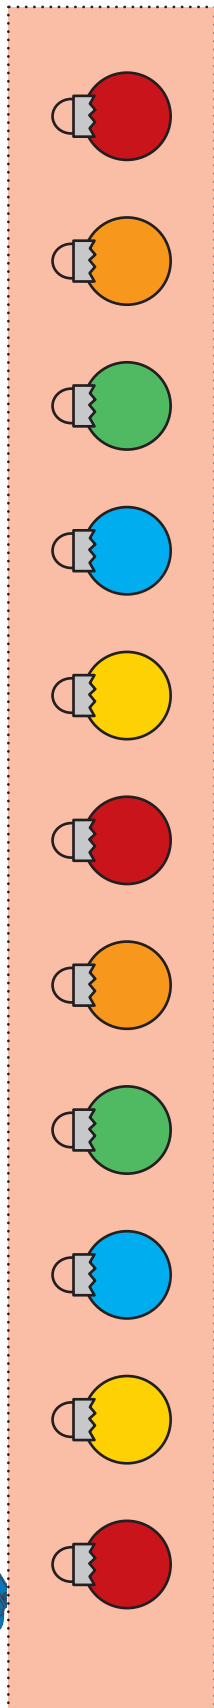

1. Cut along the dotted lines or ask a grown up to help you.

2. Bend the first strip of paper so that it makes a circle, overlapping the ends slightly. Stick together using some glue or a piece of tape.
3. Repeat folding each piece of paper through the last to create a linked chain. Print out more strips or make some out of decorative paper if you would like your chain to be longer.
4. Decide where to display your decorative paper chain!

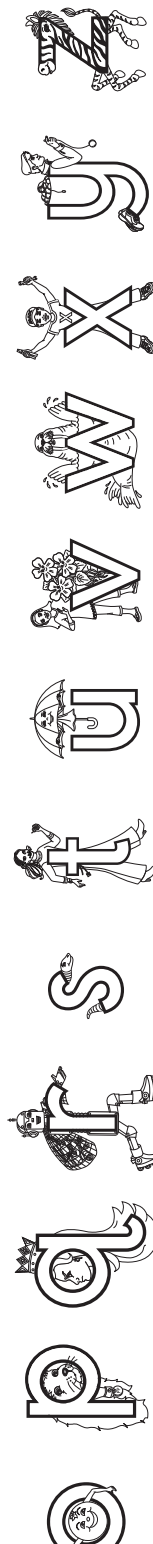

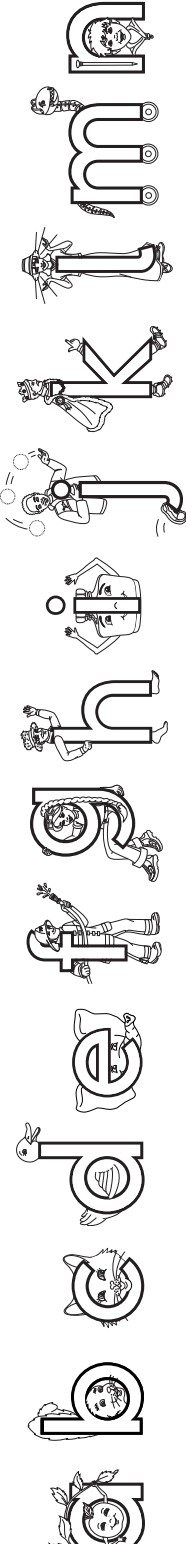

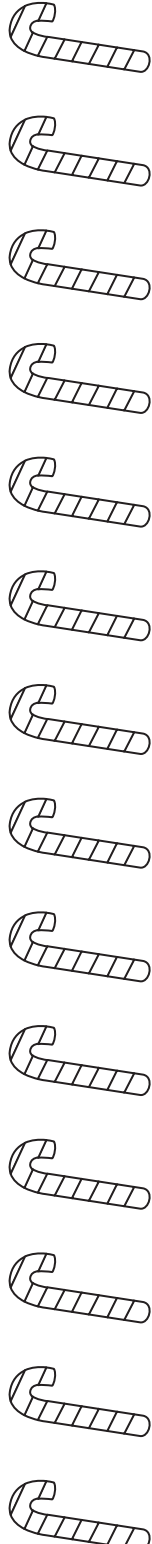

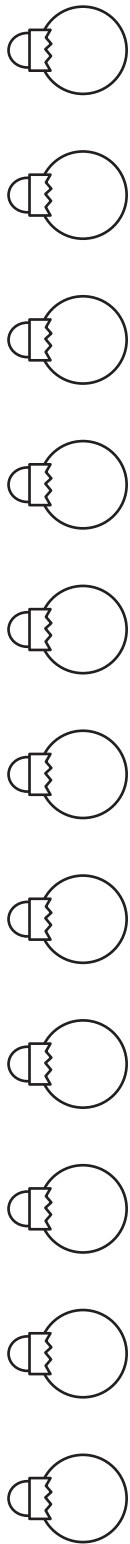

Colour strips

Decorate this strip however you like!

Black and white strips

Decorate this strip however you like!
